FACTS & FIGURES

THE EUTELSAT SATELLITE SYSTEM

(SITUATION FEBRUARY 2009)

* Capacity on third-party satellites
 ** ATLANTIC BIRD™ 4A (formerly HOT BIRD™ 10) to replace ATLANTIC BIRD™ 4 at 7° West in March
 ◆ EUROBIRD™ 9 being redeployed

ABOUT EUTELSAT

Through capacity commercialised on 26 satellites positioned to serve users in Europe, Africa, Asia and the Americas, Eutelsat is one of the world's leading satellite operators.

Our extensive satellite system is used for video broadcasting to cable and satellite homes, satellite news gathering, broadband access, IP content distribution, corporate networks, fixed and mobile telecommunications services.

Our company focus is on delivering the highest quality of service through technological performance and market expertise. To achieve our goals we have built premium satellite neighbourhoods, invested in on-ground infrastructure for satellite control and value-added services and developed strong partnerships that enable immediate response to customers who range from pay-TV platforms to government agencies and small businesses. We are fully committed to further improving performance and customer service through new satellites and technological innovation.

Headquartered in Paris, with sales offices in key markets and a wholly-owned broadband subsidiary called Skylogic, Eutelsat's expertise in satellite communications spans three decades. Our company assembles the knowledge and experience of men and women from 27 countries who share a common drive to serving our community of users and to opening satellite communications to an ever broader sphere of applications and services.

APPLICATIONS & SERVICES

VIDEO APPLICATIONS

- Direct broadcasting of TV channels and radio stations
- Distribution of television channels to terrestrial networks (cable, DTT, IP...)
- Television contribution links
- Professional video networks for programme exchanges

PROFESSIONAL DATA NETWORKS

- Private networks for interconnecting LAN/WAN and extending voice networks
- Data broadcasting services
- Corporate television and videoconferencing
- Professional mobile services for messaging and positioning

BROADBAND SERVICES

- Internet backbone connections for Internet Service Providers
- Broadband access for corporates and consumers
- Satellite-based Virtual Private Networks
- Multicasting and IP content distribution

KEY FACTS

- Capacity commercialised on 26 satellites, of which 21 fully owned by Eutelsat
- Satellites located at 20 positions on the geostationary arc between 15° West and 70.5° East, covering up to 150 countries in Europe, Africa, Asia and the Americas
- Broadcasting over 3,200 television channels and 1,100 radio stations
- Audience of over 187 million cable and satellite TV homes
- Teleports in France and Italy providing broadband services throughout the Eutelsat coverage zone, on land, in flight and at sea
- Workforce of 590 men and women from 27 countries
- Consolidated revenues: € 877.8 million (Financial year 2007/2008)
