Our high-speed broadband internet doesn't rely on telephone lines or fibre and cable networks, it's beamed down from our KA-SAT satellite in the skies above.

You can receive satellite television on the same tooway dish without using up your internet allowance and make low cost telephone calls (VoIP) anywhere in the world.

Wherever you live, our broadband connection will reach you.

All this means that you'll get great service and great value.

We can offer download speeds of up to 22 Mbps, and upload speeds of up to 6 Mbps – so you'll never have to worry about transfer time again.
