

INFORMATION NOTICE 5

SUBJECT: VSAT TERMINAL REGISTRATION

Operational experience has shown that it is **indispensable** for EUTELSAT to know the exact location of the individual remote VSATs, in order to determine the sources of interferences.

The purpose of this information note is to provide VSAT operators with the format on how to provide EUTELSAT with regular updates of the locations of their terminals.

Operators are requested to supply this data to EUTELSAT in a tabular form of the format given in the table below, via electronic means wherever possible, e.g. in Microsoft Excel, via E-mail to vsat-update@eutelsat.fr. or via the Extranet.

All data provided will be treated confidentially.

SIMPLIFIED FORMAT FOR PROVISION OF VSAT LOCATIONS UPDATES

EUTELSAT Network Code: -----									
VSAT Antenna Diameter: -----									
VSAT Antenna Manufacturer and Model: -----									
VSAT Radio Unit Manufacturer and Model: -----									
Country	Nearest Town	Latitude				Longitude			
		Deg	Min	Sec	N or S	Deg	Min	Sec	E or W
